## UNIQUE EXPERIENCES IN A UNIQUE PLACE

---

Tradicampo's success is largely due to the passion that drives us and the dedication and care with which we approach all areas and details of the service. But the main reason that allows us to provide you with an unforgettable experience is the island that sustains us. It is our responsibility to sustain it as well.

The richness of the ecosystem of São Miguel island, the abundance of Laurissilva forest, the fauna that still persists there, the breathtaking landscapes and the traditions that maintain the island's identity and character are especially present in this area of Nordeste, which makes this place truly unique.

**ALL TIME  
TRADITIONS**

## CASA DA FONTE

### ALL TIME TRADITIONS

This rustic stone house stands out majestically in the fields of the Northeast, with basaltic colors that contrast with the colorful flower beds of hydrangeas. Of all the Eco-Country Houses of Tradicampo, this is the oldest construction, dating from the 18th century.

Its renovation did not disappoint its heritage and character in any way; you can see it by the high ceiling and the towering walls that have deeply rooted the house in the ground of the island, as if it belonged here forever.

## CASA DA TALHA

This Tradicampo accommodation was originally built to house a love story. Therefore, the reconstruction of this 30's/40's decade house was carried out with great passion. Its stone walls and traditional structure, and the charm of the wooden slats that surround a bright and cool winter garden were brought together in harmony.

From here you can see the ocean and let your imagination set sail without destination.

## CASA DA TALHA

The homemade meals cooked in wood fire oven soothe the most demanding desires. The crackle of the fire tells us stories that were lost in time.

In the garden you can behold the lush vegetation of São Miguel island and if you pay attention you can hear nature calling you.
